

XcelTrax® Walking Boot

Basic just got better

XcelTrax® has long been the choice of clinicians who want a walking boot that combines quality, comfort and value. Now, DJO® has made the basic choice even better.

The new XcelTrax offers all the support and features you expect from XcelTrax with a sleeker, more stylish design. It gives patients the experience of a surprisingly good walking boot at a competitive price.

The new XcelTrax is designed to help provide support and comfort following trauma or post-operative procedure. Lightweight and sturdy, it comes with anatomically shaped uprights that help to facilitate a better fit, and integrated strapping to aid in full circumferential support and compression. Its cushioned inner/outer soles help to absorb shock upon heel strike, and the soft nylon/foam liner in the pneumatic version has an integrated pump design, making the pneumatic liner simple to inflate and adjust.

XcelTrax®

XcelTrax® Air
