Approach recovery
from any angle

DONJOY®

X-ACT FIT™ SHOULDER

The new DonJoy® X-ACT Fit™ Shoulder brace provides versatility, comfort, and functionality to help improve the postoperative or post-traumatic experience for you and your patients.

The unique design helps support the patient's arm and shoulder with a universal, customizable immobilization system that's easy to apply, adjust, and helps allow for a secure and functional recovery.

AB/AD
Abduction/Adduction
15° to 90°

EZ Axis Hinge and malleable armrest
platform provides simple, customization for
postoperative immobilization

Conforming Waist Band for
improved fit and comfort

Easy-to-adjust,
universal size helps
reduce stocking units

INTENDED USE/INDICATIONS

Rotator cuff repairs; Bankart and capsular shift procedures; Soft-tissue strains; Shoulder dislocation/subluxation; Non or minimally displaced proximal humerus fractures; Pectoral tendon rupture and distal biceps rupture; AC-Joint instabilities; Proximal biceps tenodesis, SLAP-Repairs; ORIF clavicle fractures; Humeral shaft fractures; Scapular fractures; SC joint separation, UCL recon of the elbow and other elbow fracture indications; Non- and post-surgical rehabilitation.

Approach recovery from any angle

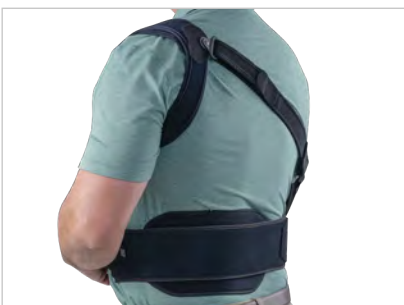

The DonJoy® X-ACT Fit™ Shoulder offers a customizable, multi-angle system to help comfortably immobilize the patient and protect postoperative repairs during rehabilitation. The universal design fits right or left arm and features a waistband and arm envelope that can be adjusted and sized to accommodate a wide range of patients.

Adjustable waist belt with front adjustment strap provides a contoured, customized fit every time

Quick-release buckles and trimmable straps for ease of application and proper fit

Movable hip pad and shoulder ring allow for additional comfort and support during the healing process

PATIENT COMFORT AND COMPLIANCE

- Lightweight, easy to don and doff while at home
- Soft, breathable mesh arm sling material helps improve airflow and comfort
- Precise-fit waist band and quick-release buckles make it easy to reapply brace at home or perform exercises without removing it
- Padded armrest platform to comfortably rest the forearm during rehabilitation
- Optional waist belt extension to accommodate larger patients
